

Patient Communications Feedback form

We are working to improve the way we communicate and engage with our patients. Our website has been designed with the input of patient and staff feedback.

Please visit our new website at www.verwoodsurgery.co.uk and let us know what you think. Please also use this form to let us know what else we can do to give our patients the information they require in a format that suits them.

Please let us know:

Your name and contact details (this is optional, but it would be helpful to ensure we understand your suggestions)

1. What do you like about our new website?

2. What information or advice, if any, is missing from our new website?

3. Please let us know what else we can do to give our patients the information they required in a format that sutis them.?

Please return this form to Reception when completed.

Thank you - The Verwood Surgery
